We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal years ending the 31st day of March, 1957, and the 31st day of March, 1958."

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant-Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant-Governor was then pleased to deliver the following gracious speech:—

*Mr. Speaker and Members of the Legislative Assembly:*

Before proroguing this Third Session of the Twenty-fifth Parliament, it is fitting that I should express appreciation for your imaginative and thoughtful consideration of the many matters brought before you and your conscientious devotion to the affairs of this Province. Each year brings its problems and, with the quickening tempo of our social and economic development, your duties are assuming increasing importance.

Besides the attention which you gave to the Budget, the Departmental Estimates, the reports of the various Committees and related subjects, you studied and gave approval to more than 175 bills, involving new Acts or amendments to Acts.

While the legislative and financial program of this Session has been very comprehensive, seven features stand out above all others. These are:

1. The implementation of a three-year program to assist education.
2. An accelerated program of assistance to municipalities, including a sweeping revision in the system of real property taxation.
3. The adoption of measures to make public hospital insurance universally available to all our people at one standard rate, regardless of occupation, age or health.
4. The extension of welfare benefits.
5. The adoption of an unprecedented program of capital construction, involving highways, power and energy resources, and water and sewerage facilities, to assist and promote industrial growth and development and the creation of new employment opportunities.
6. The strengthening of the Province's financial and credit position by imposing additional taxation, in consequence of the disappointing settlement on fiscal arrangements with the Federal Government.
7. Farm legislation of a most advanced type.

To meet the challenging demands of an ever-growing school population, you gave approval to a three-year program of assistance to elementary and secondary education entailing in the first stage, which commences with the fiscal year 1957-58, an increase in Provincial grants of nearly \$20 million. This raises the total assistance to be paid local school boards to \$101 million—an amount that exceeds the total ordinary budget of the Province for all purposes less than a decade and a half ago. Beginning in 1958, the second stage of the Province's educational program, which will be based upon equalized municipal assessments, will be brought into operation. With the growth in magnitude of these grants, considerations of equity dictate improved methods of distribution. An exhaustive study will be made of school finances to enable the Province to shape its educational grants more in accordance with the developing needs of all municipalities. The third stage, in 1959, will be devoted to making refinements and improvements in the school grants formula.

You also gave approval to various other measures designed to enhance the attractiveness of teaching in our schools and to assist our municipalities. You again made a special contribution of \$1 million to the Teachers' Superannuation Fund. Of even more lasting significance, you approved raising the Province's contribution to the Teachers' Superannuation Fund from 4 to 6 per cent, at an additional annual cost to the Province of nearly \$4 million.

You again authorized increases in grants to universities to assist them in meeting their rising operating

costs and to enable them to prepare for the huge expansion in their enrolment which is foreordained. Nearly \$10 million was provided for the construction and acquisition of new university buildings and equipment, while grants for operating and maintenance purposes were increased by \$1.2 million to \$9.4 million. Thus, you approved grants to universities for 1957-58 totalling \$19 million.

Other phases of the Province's educational program commanded your attention. You increased the assistance for public libraries and approved funds for operating the new Teachers' College at Hamilton, constructing new teachers' colleges at New Toronto and London and creating new facilities at the Lakehead College of Arts, Science and Technology at Port Arthur-Fort William and at the Ryerson Institute of Technology in Toronto.

Additional funds were also provided for the Agricultural and Veterinary Colleges.

The many facets of this educational program will involve a total expenditure on the part of the Province in 1957-58 of \$145 million, an increase of more than \$32 million over the preceding year.

Your consideration of the position of the municipalities and the measures you have adopted to assist them bear eloquent testimony to the true partnership arrangement that exists between the Province and the municipalities. Not only has the amount to be distributed in unconditional grants been increased from less than \$13 million to \$21 million for the 1957-58 fiscal year, but a sweeping revision has been effected in municipal taxation. As the taxpayer who owns his own home is not able to treat his local tax as an expense for income tax purposes, as a business firm may do for corporation tax purposes, a new method was devised to concentrate the benefit of the Province's unconditional grants on residential and farm property. This innovation will serve to stimulate home ownership and increase the number of dwellings available for rental. At the same time, it will give some relief to farm property and thus assist the agricultural industry which has not been participating fully in the Province's general prosperity.

In order that this new principle may apply in connection with Provincially-owned property, an amendment was made to The Municipal Tax Assistance Act, 1952. This amendment provides that payments in lieu of local taxes made by the Province and by Crown agencies will be computed at the rate applicable in each municipality to industrial and commercial assessments and not at that pertaining to residential and farm property.

You gave your approval to two other measures that will aid the municipalities. The first raises from 25 per cent to 40 per cent the Province's contribution toward children's aid costs. The second increases from 50 per cent to 60 per cent the proportion borne by the Province of municipal expenditures for direct relief.

As a result of these and other improvements in the Provincial grants systems, the amounts payable to municipalities, school boards and other local agencies will this year total \$214 million—an increase of \$34 million in the past year and \$55 million over the last two years.

The requirements of municipalities for new capital projects such as schools, waterworks and sewage treatment plants, have not escaped your attention. To assist the municipalities in this financing, the borrowing power of the Ontario Municipal Improvement Corporation has been raised from \$50 million to \$150 million. An Act has been passed extending the powers of the Ontario Water Resources Commission, while additional capital and operating appropriations have been made available in order that this essential work may proceed.

This many-sided program demonstrates that you are keeping the position of the municipalities under continuing review and that you will not be indifferent to their future needs.

Months of study and negotiation with the Federal Government have culminated in an event of far-reaching significance—undoubtedly the most notable advance in human betterment in our recent history. I refer to the passing of an enabling Act at this Session, and the agreement in principle with the Federal Government, making public hospital insurance at the standard ward level, without limits as to the duration of stay, universally available to all persons normally resident in Ontario. Plans are being made with a view to having the program in operation by January 1st, 1959. The basic hospital care requirements of our people, including those of individuals who are not now eligible under private plans, will then be met at a uniform rate available to all.

A vigorous program is being undertaken to provide funds not only for the extension of the public general, chronic and convalescent hospitals, but for additional beds and more intensified treatment of patients in the Ontario Hospitals for the mentally ill. New developments in the treatment of patients with mental disorders are bringing salutary results.

The Government is constantly seeking and applying new scientific measures to maintain a healthy and well-adjusted population and to accelerate the restoration to normal, useful lives of persons who are mentally or physically handicapped. The same modern approach is also being applied in the operation of our reformatories and in our welfare services.

During this Session, you approved legislation relating to cancer treatment and research. A new Act supersedes previously existing legislation and outlines the method of operation of the Ontario Cancer Treatment and Research Foundation and the Ontario Cancer Institute. Through these organizations an intensive search will be made into the causes of cancer and the best methods of treating it. The people of Ontario will have one of the best equipped and staffed cancer hospitals anywhere.

Continuing the advance of past years, further improvements have been made in the Province's welfare program. Under the new Mothers' and Dependent Children's Allowances Act, payments will be made on a cost of maintenance basis rather than on a flat rate as under the former Act. The two-year waiting period before an allowance would be paid for the children of unmarried mothers has been removed and benefits extended to all needy divorced mothers. Dental care and treatment will be made available to all children under 18 years who are sons and daughters of social assistance cases.

You approved legislation authorizing the Province to participate with the Federal Government in paying increased allowances and pensions under The Old Age Assistance Act, The Disabled Persons' Allowances Act and The Blind Persons' Allowances Act. Additional funds were provided for increasing the number of Homes for the Aged, which serve to remove the pressure on our public general hospitals.

The Marriage Act was amended to make it clear that Indians may or may not, at their own discretion, take advantage of its licensing provisions.

The people of Ontario have reason for gratification in the rapid pace of their development and the continued high levels of employment and income. But these conditions amplify the demands for provincial and municipal services of all kinds. Population cannot grow nor industry expand unless they are assured of adequate highways and roads, electric power and energy, schools, hospitals, adequate water and sewerage works and those many other indispensable services which are constitutionally, logically and economically the spheres of provincial and municipal jurisdiction. Properly, these services fall within the orbit of the Province and its municipalities. In these fields, they have the experience, the skill and the intimate knowledge of local conditions that are essential to efficient administration. They must, therefore, be a

positive force, expanding their services to meet the needs that are inextricably related to population and industrial growth.

To meet these pressing demands, you have deliberated upon and authorized a capital construction program that far exceeds that of past years. For instance, the appropriation for highways and roads totals \$232 million, including \$53 million to be paid to the municipalities to assist them in the building of roads and thoroughfares.

Highway safety and administration, motor vehicle licensing and related matters have been the subject of your deliberations. To deal with many of these problems, the Department of Transport has been established. Amendments to The Highway Traffic Act provide for an extensive revision of driving regulations. Provision is being made for the levying of a fee of \$5 with respect to motor vehicles on which insurance has not been obtained, while the limits on claims that may be made on the Unsatisfied Judgment Fund have been raised from \$5,000 to \$10,000 on one-person claims and from \$10,000 to \$20,000 in the case of claims made for two or more persons.

Conservation and resource development continue to be a focus of attention. Flood control, reforestation, irrigation, farm planning, resource protection and conservation education, constitute important sectors of the work of twenty conservation authorities that have now been formed.

Ways and means of improving the position of agriculture have been given close study and consideration. Following the decision handed down by the Supreme Court of Canada, amendments to The Farm Marketing Act have been made which will serve to clarify existing legislation and make Provincial marketing plans more effective.

New enactments were approved under The Milk Industry Act whereby two boards that have been dealing with different phases of the milk industry will be amalgamated with a view to securing greater efficiency.

Under the Province's program of assistance, further extensions and improvements will be made to electric power lines in rural areas. The work of the Ontario Telephone Authority is also being continued and expanded.

Increased appropriations were authorized for the Department of Lands and Forests and the Department of Mines. Among the amendments to legislation relating to our natural resources was the revision of The Mining Act designed to safeguard surface rights in the general interests of both forestry and mining operations.

As stated in my remarks at the opening of this Session, the Federal Government's failure to face up realistically to the changing pattern of provincial and municipal requirements in this great tax-earning and rapidly growing Province has made our task infinitely more difficult. Reference was made to the shortage of capital funds for investment and the rise in interest rates that are aggravating our problem. It was pointed out that if the Province and its municipalities

were to proceed and provide the services that our people and industry require, additional revenue would have to be obtained.

A full explanation was given to the House of Ontario's dissatisfaction with the fiscal arrangements the Federal Government was prepared to offer. They have not yet grasped the problems with which we are confronted. In these circumstances, Ontario has no alternative but to make a number of moderate tax increases—the first in the thirteen years since this Government took office. Such increases have been designed to strengthen the financial and credit position of the Province so that it may not only meet the demands for its own services but provide additional assistance to municipalities. Amendments were therefore made to The Gasoline Tax Act, The Motor Vehicle Fuel Tax Act, 1956, The Logging Tax Act, The Mining Tax Act and The Fire Marshals Act. A new Corporations Tax Act was passed.

Legislation was passed empowering Ontario to enter into an agreement with the Federal Government for the rental of its personal income tax rights.

Many other matters—too numerous to mention here—called for legislative amendment and reform.

I wish to thank the Honourable Members who have served on the various legislative committees. They have brought to the committees, abilities and points of view which have been invaluable. The two Select Committees—one on Air Pollution and Smoke Control and the other on Toll Roads and Highway Financing—have completed their reports and presented them to the Legislature. A new Select Committee has been appointed to examine and report on all aspects of The Labour Relations Act.

Gratitude is expressed to the public servants of Ontario for the faithful discharge of their duties and responsibilities.

No more comprehensive program has even been dealt with by the members of this Legislature. It affords greatly increased assistance to municipalities and special relief to home owners and farmers. Steps to strengthen our private enterprise system were blended with measures to improve standards of education and health and the general well-being of our people. In the accomplishments of this Session are to be found many reasons for satisfaction.

I pray that Divine Providence will guide you and bless you.

The Provincial Secretary then said:—

*Mr. Speaker and Members of the Legislative Assembly:*

It is the will and pleasure of the Honourable the Lieutenant-Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

RODERICK LEWIS,  
Clerk of Legislative Assembly  
of Ontario.
